

FACULTY OF APPLIED SCIENCES

LEONARDO LECTURE 2007

CORY
DOCTOROW

THE TOTALITARIAN URGE

TOTAL INFORMATION AWARENESS AND THE COSMIC BILLIARDS

Emergent technologies like the Internet teach us that control is an illusion, the universe is out of control and laughing at us, and that the more we watch and control, the more problems we have.

Doctorow is a champion of electronic freedoms, co-editor of beingboing.net, and an award-winning science fiction novelist.

THIS FREE PUBLIC LECTURE TAKES PLACE TWICE:

Thursday, March 8, 6:00 pm

Simon Fraser University, Vancouver, 515 West Hastings St.
